#### Eagle Finds a Bugle

Eagle flew high in the sky one day. When she looked down, she saw a boy riding on his horse. He was riding to the church with the tall steeple. He began to bobble on his horse. The bridle on the horse was too loose. The boy would not make it on his horse to the church with the tall steeple.

When he began to bobble, he began to startle Eagle. What should she do if the boy fell from his horse? Eagle could try to kindle a fire. Men in battle were near. They might see the fire and come.

Eagle could paddle in the river and find help on the other side. She had to stifle a cry when she began to think about the river. It was too far to the other side. The boy had to have help now.

From up in the sky, Eagle saw a bugle on the ground. Eagle could blow the bugle. Eagle went to the bugle. Help would come.
