At the Dune

Shane and Mike are on the sand. Jane comes by with her kite. They take turns with the kite. It glides in the sky as they run over the sand.

Mike was running with the kite and did not see the hill in the sand. The slope of the hill made Mike fall. This made the kite dive in the lake. Jane was sad so Shane and Mike hiked down the sand to get the kite. They hiked and hiked but were just about out of time. They need to get the kite before it is time to be home. When the tide came in, the kite washed up to the sand. Jane had her kite back and Shane, Jane, and Mike went home.
